Relevant Coursework: Machine Learning, Computer Vision, Natural Language Processing, Data Science, Artificial Intelligence, Database Systems, Software Engineering, Algorithms

EXPERIENCE

Freelance Web Developer · *Profumo Bangladesh (online perfume retailer)* Oct 2026 – Present

- Took the business online: built and launched its store (HTML/CSS/JavaScript on Cloudflare Workers) with WhatsApp checkout, delivery zones and cash-on-delivery, plus an admin tool so the owner updates products and stock without code; the store helped increase sales.
- Cut Largest Contentful Paint from 3.75 s to 1.72 s, added a strict Content Security Policy and a 100+ check automated QA suite; produced short promotional videos for the shop's social media.

Director, Communications & Marketing · *BRAC University Computer Club (BUCC)* Feb 2026 – Present

- Lead the club's communications and marketing; ran media and event scheduling for Grace Hopper Mindstorm 2.0, a tech competition for female students (Apr 2026, 150+ participants).
- As a C&M department member, was main host and ran marketing for Bit Battles 2025, BUCC's flagship ICPC-style programming contest (100+ teams, BDT 50,000 prize pool, sponsored by Phitron).

Professional Magician & Mentalist · *Self-employed; Mentalism Specialist, Magic School of Bangladesh* 2020 – Present

- Performed 15+ paid shows, including *Choose Wisely*, a solo ticketed show (Apr 2025), ticketed shows at Naveed's Comedy Club, Rishka Festival 2025 and the South Asia Trade Fair 2025 (SAARC Chamber & FBCCI).

RESEARCH

Cross-Surface Generalization in U-Net Crack Segmentation · IEEE-format course paper, Computer Vision Summer 2026

- Ran a 12-run U-Net ablation on 11,298 images (best 0.6707 test Dice); showed Dice falls to 0.17–0.21 on unseen surfaces, and found 48 official test images duplicated in training.

Predicting Steam Game Success Before Launch · IEEE-format course paper, Data Science (team of 3) Summer 2026

- Modelled a game's success tier from 54 pre-release features across 101,276 Steam games; ordinal regression reached 0.5594 macro-F1 and 0.6691 quadratic weighted kappa.

Multi-Class News Classification: A Controlled Comparison of 10 Models · Course paper, NLP (team of 4) Summer 2026

- Fine-tuned BERT-Base, the best of 10 models on 20 Newsgroups (0.7225 test macro-F1), and wrote the cross-model error analysis.

PROJECTS

Blackhand: Real-time Social Deduction Game · Python, FastAPI, WebSockets, React, Docker blackhand.onrender.com

- Framework-free Python game engine behind a FastAPI WebSocket server that sends each player only their own view; 86 pytest tests; shipped as a Docker image on Render.

NOT10: Multiplayer Card & Betting Game · JavaScript, Node.js, WebSockets, Vitest not10.onrender.com

- Designed and built a server-authoritative 2–4 player game with room codes, reconnection and AI bots with 3 personalities; rebalanced the rules after playtests; 73 Vitest tests.

FoodTabs: Restaurant Discovery & Review Platform · MERN, JWT, Stripe · team of 4 Mar – May 2026
